## Customer Reviews

If you are having problems understanding contract law, this book really won't help all that much. All it has is a compilation of laws in it and these laws are not "dumbed down" so 1Ls can understand it better. My prof required it, but I could have gotten this stuff online for a heck of a lot cheaper.

Even if your professor does require this book, all the Restatements, UCC, and CISG are available online. Just type it into Google. I think I used the book once.

It has a little bit of everything from U.C.C. to samples from the Restatements and the C.I.S.G. Not very big and is handy

Clearly anyone buying this is not buying it for fun and laughs. A decent paperback version will serve you well, and you can bend it if you have to cram your bag/briefcase that day.

Wish it had the comments as they would be really helpful but a great supplement to my contracts book (Knapp). A must for my class since we can take it into the final!

This book is a good reference of some basic UCC and Restatement stuff. The only problem is that it cuts out some of the comments and explanations.

Don't really have anything negative to say it is just a rule book, nothing great, but it is what I thought it was.
