As a law student in Professor Bloom's class, I can absolutely recommend this book. It was extremely helpful at the end of the semester while I was preparing for the Criminal Procedure exam. This book has excellent, and accurate, summaries of law, while somehow still managing to be an interesting read. Examples at the end of each section help the reader apply the law they have learned to real scenarios. All case citations are up to date and helpful to understand the material presented in each section. This book would be helpful even if you're not a student in Bloom or Brodin's classes, and I imagine that it would still be an interesting read even for those not in law school at all. I rented this book for the semester while a student in criminal procedure, but I'm definitely considering buying my own copy after the class ends just to have one on my own bookshelf.

I swear by this series, and this one definitely doesn't let you down. It takes a very complicated field and clarifies the law as it is currently practiced; it makes some sense of the madness of Fourth and Fifth Amendment law, which is seriously needed when you're studying for exams.

Super helpful...especially if you have a prof (like I did) who rambles on about goofy stories in class but never tells you what he expects on the exam. Don't wait to read this at the end of the semester...definitely use it throughout the course and it will help you get through!

If you have to take an ACJ class this is a must have especially at LSU!

This is a great supplement that every law student should buy in addition to taking their criminal procedure class. The examples are very good for practice. You won't regret this purchase

I bought this for a law school course; very informative!

Literally helped me get an honors grade...
