## Customer Reviews

Like many of the other reviewers, I love Stacy and Clinton's TV show, and it has helped me greatly in weeding out pieces in my wardrobe and buying new clothes to replace them. When I discovered that they had published a book, I rented it from the local library immediately. In a way, I am glad I

rented it rather than purchasing it. I liked how the book not only broke down different styles by body type, but also used REAL people to demonstrate those body types. It was really easy to flip through and find the different sections that applied to my body type. As always, the information they presented for each body type was great, and the styles are pretty much guaranteed to work well. However, the book needed improvement in several areas. First of all, only six pages are dedicated to each body type, and while those six pages are informative, it would have been more helpful if they had given each type a few more styles and pointers. For example, in the "curvy" section, Stacy and Clinton recommend a skirt suit, which is great, but they didn't give any pointers for people who want to wear trousers occasionally. The book would have been greatly improved if they gave two or three different looks for work, weekend, and evening. Secondly, their suggestions were kind of static, meaning they assumed everybody works at a place requiring suits and trousers, everybody goes out for the evening in a cocktail dress, etc. Essentially, they did not make any attempt to curtail their wardrobe selections to individual life-styles. When they list at the front the "essential" pieces for a wardrobe, I found that several of them were really rather obsolete for me. I never go places where I need "evening" attire, for example.
