Best Sellers Rank: #17,885 Paid in Kindle Store (See Top 100 Paid in Kindle Store) #7 in Kindle Store > Kindle eBooks > Humor & Entertainment > Puzzles & Games > Reference #12 in Kindle Store > Kindle eBooks > Humor & Entertainment > Puzzles & Games > Role Playing & Fantasy #12 in Kindle Store > Kindle eBooks > Humor & Entertainment > Puzzles & Games > Science Fiction & Fantasy Gaming

## Customer Reviews

I'm guessing all the 5 star reviews for this book are paid, because this has to be one of the most incomplete guidebooks I've ever read. The quality of the book itself is severely lacking, as well. No color pictures (yes, that matters) very little text per page, and its only 50 pages. Not good. It has a basic overview of the biomes and most of the spawns, doesn't go into any details of specific spawn weaknesses, doesn't give good advice on building a base, says absolutely nothing about crafting... Honestly I could have written this book and I've been playing for less than a week.

I guess I missed that this book isn't printed in color. That would make a huge difference probably in the eye candy department. Looks like the only Terraria book out there, though, so I'm glad they published it. My son says he likes the book, though, and has learned some helpful tips. He just doesn't pour over it daily as with his Minecraft tips books.

I already mastered the basics and wanted a better version of the wiki so I can have something for reference. If I got this before starting the game it wouldn't be a waste of money. It also needs to be updated. If it had a structured reference for every aspect (npc, blocks, mobs, items) it would be more useful but it mostly covers biomes.

This book is a fraud. It is clearly written by a team of people who do not play Terraria. The information is grossly generalized (aka, you will learn more from playing a single time), there are no cheats, tips or tricks, and the typos are everywhere. There are content, spelling, and language typos. The pictures are in black and white (which does matter), and they are repeated frequently. Terrible waste of money.

This book is in black and white, very short, and is full of grammatical errors (bad translation maybe?) and useless alphabetical lists. Further, the details are for the 1.0 version of the game (PC is 1.3.3 right now) so the information is outdated and frequently just plain wrong. The "official Terraria Wiki" is a very good online source and makes this unnecessary. We thought my son would like having something written out, but it's wrong so often it wasn't useful to anyone.

Hmmmm, definitely for very beginners. If you've spent even a couple hours on the online Terraria Wiki page, or played with more experienced friends - this guide is not likely to be much use. It is clearly not professionally done (black and white - awkward and repetitive grammar). There are some good things here, and it is nice to have an actual book with you I suppose - but the online wiki is so much more interactive - and all the info is there. This book is not long, and pretty sparse on information. I'm sure my kids will be thrilled with it to some degree....but would recommend the online sites over this.

My sons (ages 8 and 10) love this book. Lots of tips and hints. It does look like something printed off the desktop as there are no color photos inside - wish it were more polished. Once they read through it, they were done as there is nothing enticing to keep looking at. All the photos are screen

shots in black and white. Still, great hints that they enjoyed discovering.

This is nothing more than information pulled from the internet and put in book form. I had hoped this would be full of details and tips like the Minecraft Complete Handbook (4 book set). Don't waste your money on this.
