## Synopsis

Letters Written During a Short Residence in Sweden, Norway, and Denmark (1796) is a deeply personal travel narrative by the eighteenth-century British feminist Mary Wollstonecraft. The twenty-five letters cover a wide range of topics, from sociological reflections on Scandinavia and its peoples to philosophical questions regarding identity. Published by Wollstonecraft's career-long publisher, Joseph Johnson, it was the last work issued during her lifetime. Wollstonecraft undertook her tour of Sweden, Norway, and Denmark in order to retrieve a stolen treasure ship for her lover, Gilbert Imlay. Believing that the journey would restore their strained relationship, she eagerly set off. However, over the course of the three months she spent in Scandinavia, she realized that Imlay had no intention of renewing the relationship. The letters which constitute the text, drawn from her journal and from missives she sent to Imlay, reflect her anger and melancholy over his repeated betrayals. Letters Written in Sweden is therefore both a travel narrative and an autobiographical memoir. Using the rhetoric of the sublime, Wollstonecraft explores the relationship between the self and society in the text. She values subjective experience, particularly in relation to nature; champions the liberation and education of women; and illustrates the detrimental effects of commerce on society.
