Shining And Other Paths: War And Society In Peru, 1980-1995 (Latin America Otherwise)

Synopsis

Shining and Other Paths offers the first systematic account of the social experiences at the heart of the war waged between Shining Path and the Peruvian military during the 1980s and early 1990s. Confronting and untangling the many myths and enigmas that surround the war and the wider history of twentieth-century Peru, this book presents clear and often poignant analyses of the brutal reshaping of life and politics during a war that cost tens of thousands of lives. The contributors—a team of Peruvian and U.S. historians, social scientists, and human rights activists—explore the origins, social dynamics, and long-term consequences of the effort by Shining Path to effect an armed communist revolution. The book begins by interpreting Shining Path's emergence and decision for war as one logical culmination, among several competing culminations, of trends in oppositional politics and social movements. It then traces the experiences of peasants and refugees to demonstrate how human struggle and resilience came together in grassroots determination to defeat Shining Path, and explores the unsuccessful efforts of urban shantytown dwellers, as well as rural and urban activists, to build a "third path" to social justice. Integral to this discussion is an examination of women's activism and consciousness during the years of the crisis. Finally, this book analyzes the often paradoxical and unintended legacies of this tumultuous period for social and human rights movements, and for presidential and military leadership in Peru. Extensive field research, broad historical vision, and strong editorial coordination enable the authors to write a coherent and deeply humanistic account, one that draws out the inner tragedies, ambiguities, and conflicts of the war. Providing historically grounded explication of the conflicts that reshaped contemporary Peru, *Shining and Other Paths* will be widely read by Latin Americanists, historians, anthropologists, gender theorists, sociologists, political scientists, and human rights activists. "Shining and Other Paths: War and Society in Peru, 1980 - 1995," by Editor Steve J. Stern is a collection of essays that vividly documents a revolution that only brought suffering and death. This five-part book traces the roots of the Shining Path from its heady beginning to the conquest that failed. Part One is dry. However, Part Two & Three generate much more interest. I found Ponciano del Pino, Nelson Manrique, Orin Starr, Jo-Marie Burt and Patricia Oliart the best of the bunch. They crystallized the subject...bringing it to life and provided stimulating insights. Shining Path started in rural Ayacucho in the late 1970's and eventually made its way into the urban centers, particularly Villa El Salvador outside of Lima nearly ten years later. Initially Shining Path was ethical and moral. The Founding Father of the movement Professor Abimael Guzman instructed his Indian followers to punish adultery, alcoholism, vagrancy, robbery and cattle rustling. Moreover, the young flocked to the revolutionary rhetoric of a "people's war." Early on the Shining Path maintained good ties with the peasants in the countryside. However, this did not last for long because in 1983 - 1984 the armed forces implemented a brutal "dirty war" that forced the guerrillas away from traditional regions of support and into new territory where they too used fear and intimidation tactics against the local peasant population. Eventually, the Shining Path went out of control...conducting terrible massacres against unarmed civilians and forcing children into its ranks. The tide turned against the Shining Path with the 1990 election of President Alberto Fujimori.
